

### Highlights:

- aflatoxin M1 in hard cheese
- natamycin in cheese
- metals in milk
- nitrates&nitrites in milk
- pesticides in milk
- sulphites in shrimps
- NSAIDs in muscle
- macrolides in fish
- nitroimidazoles in muscle and honey
- progesterone in serum

### *A better Proficiency Test approach*

Test Veritas S.r.l. was created to satisfy the increasing international demand for services and products for the conformity assessment in the field of agri-food analysis.

For External Quality Control, Test Veritas offers to its customers the interlaboratory proficiency testing scheme **Progetto Trieste**.

The main features of Progetto Trieste are:

- Screening results are assessed by dedicated criteria
- Z-scores are not affected by screening results
- Test materials are mainly incurred
- Two samples with different concentrations are often provided

# Progetto Trieste - Proficiency Testing

## Groups of analytes

### Mycotoxins

Aflatoxins B<sub>1</sub>,G<sub>1</sub>,B<sub>2</sub>,G<sub>2</sub>,M<sub>1</sub>  
Fumonisin  
Ochratoxin A  
Patulin  
DON  
Zearalenone

(pages n. 16-18)

### Veterinary drug residues

Synthetic steroids  
RAL  
Stilbenes  
βagonists  
Ractopamine  
Corticosteroids  
Chloramphenicol  
Tetracyclines  
Quinolones and fluoroquinolones  
Nitrofurans metabolites  
Avermectins  
Anthelmintics  
Macrolides  
βlactams  
Sulphonamides  
Coccidiostats  
Streptomycin  
Nitroimidazoles  
Illegal dyes  
NSAIDs  
Thyrostats  
Progesterone

(pages n. 3-12)

### Histamine biogenic amines and TVBN

(page n.7)

### Pesticides

Fipronil, Glyphosate, Pyrethroids  
and others pesticides, see the lists on page n.14

(pages n.13-14)

### Metals

Lead, Cadmium, Mercury, Arsenic  
Tin, Iron

(page n.15)

### Additives

Nitrates, Nitrites, Sulphites, Natamycin

(page n.16)

### Acrylamide

(page n.17)

# Progetto Trieste - Veterinary Drug Residues 2022 Programme

Those proficiency tests could distinguish between participations with confirmatory methods (e.g. HPLC, GC) or screening methods (ELISA, RIA, biosensors, microbial inhibition assays, lateral flow, etc...).

For participating with **confirmatory methods** the code is **A** and quantification is requested. Evaluation of performance will be in z-score terms.

For participating with **screening methods** the code is **B** and quantification is optional. Qualitative results will be assessed by dedicated criteria (see *Evaluation Criteria* at [www.testveritas.com](http://www.testveritas.com)).

When the shipment includes 2 test materials, they are at a different concentration of analyte. The laboratory will receive an evaluation for each test material.

## ROUND of MARCH (see next page too)

Shipping date: March 14th 2022. Result submission deadline: April 19th 2022. Final Report available in May 2022.

Order deadline: January 31st 2022

<sup>L10</sup>Lyophilized material. Quantity regards the final quantity after reconstitution. Instructions for reconstitution will be delivered with the test material.

## TECHNICAL ASPECTS

Each test material may contain one or more substances from the table below. The proposed concentrations are indicative, especially for incurred matrix (naturally contaminated) with multiple contamination. In case 2 test materials are provided, one could be blank.

Milk test materials would contain preservative solutions.

It is not requested to research all the molecules of each group.

Those proficiency tests could distinguish between participations with confirmatory methods (HPLC-GC) or screening methods (ELISA, RIA, biosensors, microbial inhibition assays, lateral flow, etc...).

For participating with **confirmatory methods** the code is **A** and quantification is requested. Evaluation of performance will be in z-score terms.

For participating with **screening methods** the code is **B** and quantification is optional. Qualitative results will be assessed by dedicated criteria (see *Evaluation Criteria* at [www.testveritas.com](http://www.testveritas.com)).

Test Veritas is responsible of subcontracted activities.

## TECHNICAL ASPECTS

Each test material may contain one or more substances from the table below.

The proposed concentrations are indicative, especially for incurred matrix (naturally contaminated) with multiple contamination.

It is not requested to research all the molecules of each group.

Category	List of molecules	Indicative concentrations
Aflatoxins B/G	aflatoxins B <sub>1</sub> , B <sub>2</sub> , G <sub>1</sub> , G <sub>2</sub> and/or total aflatoxins	maize: < 50 ppb
Fumonisin	fumonisin B <sub>1</sub> , B <sub>2</sub> and/or sum (B <sub>1</sub> +B <sub>2</sub> )	maize: < 6000 ppb
Ochratoxin A	ochratoxin A	maize: < 30 ppb
DON	deoxynivalenol	maize: < 6000 ppb
ZON	zearalenone	maize: < 500 ppb

### WHAT IS

A Proficiency Testing provides the evaluation of participant performance against pre-established criteria by means of interlaboratory comparisons. Test Veritas organizes it through one or more rounds of interlaboratory EN ISO/IEC 17043:2010 accredited trials or through trials that follow this international standard requirements.

The accreditation certifies that Progetto Trieste meets the requirements of the standard EN ISO/IEC 17043:2010 "Conformity assessment- General requirements for proficiency testing". You could download the certificate in this page under the section **ACCREDITATION**.

# General conditions

## TAX

All prices are excluding VAT, where applicable, and shipment costs.

## PRICE FOR ADDITIONAL MATERIAL :

In case the provided volume is not enough, it is possible to order additional material.

120,00 Euro for codes containing 2 test materials

90,00 Euro for codes containing 1 test material

Laboratories that order additional material will receive double quantity of material.

Additional materials will be sold only in combination with Test Materials. They do not allow to take part into the PT.

## PRICE REDUCTIONS (applicable only to orders placed on-line):

- 5% price reduction for ordering 6 or more Test Materials "A" o "B"

## SHIPPING COST (Euro):

	EU	Europe non-EU	
• <b>for mycotoxin and acrylamide rounds</b>			
bread, chips, cocoa, paprika, cereals, nuts, feed, coffee, milk:	60,00	130,00	Shipping cost for other destinations will be quote on request.
apple juice, cheese:	90,00	130,00	
• <b>for veterinary drug residues rounds</b>			
urine, milk, honey, eggs, tissues:	60,00	130,00	Shipping cost for other destinations will be quote on request.
water, serum :	90,00	130,00	
• <b>for pesticides, metals, additives, histamine and other compounds rounds</b>			
	EU	Europe non-EU	Shipping cost for other destinations
	60,00	130,00	will be quote on request.

## INVOICING, PAYMENT CONDITIONS

The performance assessment service will start from the on-line registration to the proficiency program. For this reason the invoice will be issued upon the receipt of your order and has to be paid before the test materials will be shipped.

**Note: in case your invoice is not paid before the test materials are send, your laboratory would be cancelled from the participant's list.**

A fixed bank charge of 20,00 euro will be applied for the orders from all non-EU countries. The orders from non-EU countries would be paid against proforma-invoice; 35,00 euro for the certificate of origin can be charged.

Payment can be made by bank credit transfer. Our bank details will be indicated in the order confirmation and in the invoice.

## JURISDICTION

Any dispute arising from this contract is exclusively competent the Court of Trieste, excluding any competing court. Every business relationship will be settled in Italian language. If there were written communications in English, the only language accepted to the Italian alternative, the interpretation of which was contrary to written communication in Italian always prevail the sense of the latter.

## QUALITY SYSTEM

Proficiency Testing Scheme for mycotoxins and veterinary drug residues, histamine, metals and pesticide residues are UNI CEI EN ISO/IEC 17043:2010 accredited by ACCREDIA (Cert. PTP N. 0008 P) .

Scopes of accreditation are available at [www.accredia.it](http://www.accredia.it).

## CONFIDENTIALITY OF RESULTS

The identity of participants is confidential: every participating laboratory receives a code.

Only with specific authorization from the participant, the Progetto Trieste Secretariat will disclose all or part of the results/evaluation to third parties. In exceptional circumstances, when a regulatory authority requires proficiency testing results to be directly provided to the authority by the proficiency testing provider, the affected participants shall be notified of this action in writing.

The participants' list will be published in the Final Report.

## CONTROL MATERIALS (AFTER PROFICIENCY TEST CONCLUSION)

At the end of the rounds, Test Materials are made available to the participants (until stock lasts) to carry out further investigations or to use them in the control charts of the analytical method. The test materials will be kept for 2 months.

Exceeded this time, where possible they will be accompanied by a datasheet which will establish the deadline.

The recordings of the tests carried out relating to the test materials will be available for 5 years.
